CABINET OF MINISTERS OF UKRAINE

DECREE

dated February 28, 2025 No. 294
Kyiv

On approval of the Procedure for developing and monitoring the implementation of the medium-term plan for priority public investments of the state

The Cabinet of Ministers of Ukraine **decides:**

1. Approve the Procedure for developing and monitoring the implementation of the medium-term plan priority public investments of the state (hereinafter referred to as the Procedure), attached.

2. To establish that the provisions of the Procedure for the use of the Unified Information System for the Management of Public Investment Projects shall apply after the regulatory and legal regulation of the issue of the functioning of such an information system.

3. The Ministry of Economy shall ensure:

implementation of the provisions of the Procedure;

developing an annual medium-term plan for priority public investments of the state during the preparation of the Budget Declaration.

4. This resolution shall enter into force simultaneously with the Law of Ukraine No. 4225-IX of January 16, 2025 “On Amendments to the Budget Code of Ukraine to Update and Improve Certain Provisions”, but not earlier than the date of its publication.

Prime Minister of Ukraine **D. SHMYGAL**

Ind. 67

APPROVED by
Resolution of the Cabinet of Ministers of Ukraine dated February 28, 2025 No. 294

PROCEDURE
for developing and monitoring the implementation of the medium-term plan for priority public investments of the state

1. This Procedure determines the mechanism for developing and monitoring the implementation of the medium-term plan for priority public investments of the state (hereinafter referred to as the medium-term plan).

2. In this Procedure, the following terms are used in the following meaning:

industry (sector) for public investment - a sphere of activity of the state into which public investments are directed for the preparation and implementation of public investment projects and public investment programs;

cross-cutting strategic objectives for public investments (hereinafter referred to as cross-cutting strategic objectives) - objectives for public investments that are cross-sectoral in nature and correspond to national or global development priorities, for the achievement of which government bodies and individuals and legal entities, public associations, and other entities that may influence the process of achieving goals and/or may be affected by their results join forces;

Medium-term plan - a document that defines the principles of public investment for the medium-term period, in particular priority industries (sectors) for public investment, main areas of public investment (including under existing public investment projects and public investment programs) in accordance with state policy objectives in terms of the sphere of activity, indicative distribution of funds from various sources of financing, cross-cutting strategic goals.

3. Other terms are used in the meaning given in the Budget Code of Ukraine, Laws of Ukraine "On the Principles of State Regional Policy" and "On electronic identification and electronic trust services".

4. The medium-term plan is developed for the planned and two subsequent budget periods each year during the preparation of the Budget Declaration.

5. The medium-term plan is developed by the Ministry of Economy based on proposals from ministries in accordance with the goals and objectives defined by strategic planning documents, within the framework of the estimated maximum aggregate volume of public investments for the medium-term period, approved by the Ministry of Finance.

6. The Ministry of Economy for the preparation of a draft medium-term plan:

uses the list of industries (sectors) for public investment in accordance with Appendix 1 and, if necessary, prepares proposals for amendments to it;

forms a list of subsectors of industries (sectors) for public investment, taking into account recommendations received from ministries responsible for industries (sectors) for public investment;

forms cross-cutting strategic goals for the medium-term period based on the analysis of strategic documents, strategic planning documents of state regional policy and taking into account recommendations received from the Ministry of Social Policy, the Ministry of Development, the Ministry of Energy, and the Ministry of Environment.

7. The Ministry of Economy shall, no later than March 10 of the year preceding the planned one, send to the ministries responsible for the industries (sectors) for public investment a request for submission of proposals for the medium-term plan and instructions on the formation of such proposals (hereinafter referred to as the instructions), which shall contain, in particular, approaches to determining the main areas of public investment (with mandatory consideration of existing public investment programs and public investment projects, target indicators of public investment areas, as well as taking into account the specificity, measurability, reachability, relevance of such target indicators), approaches to determining indicative financial needs for public investments and calculations substantiating such needs, as well as the features of submitting such proposals.

8. The proposal for the medium-term plan is prepared by the ministries responsible for the industries (sectors) for public investment, based on the relevant industry (sector) strategies, the State Strategy for Regional Development (as a cross-sectoral strategy) and the list of industries (sectors) for public investment.

The proposal for a medium-term plan should contain information on:

subsectors of industries (sectors) for public investment;

directions of public investment in relevant industries (sectors) with a mandatory definition of the main directions as of the date of submission of the proposal, consistent with the objectives of the State Strategy for Regional Development, industry (sector) strategies, in terms of spheres of state policy, regions and territories;

target indicators of the public investment direction and their planned values, which are expected to be achieved.

Such indicators are determined taking into account cross-cutting strategic goals and must be consistent with indicators of task performance defined by the State Strategy for Regional Development and relevant industry (sector) strategies;

indicative financial needs for public investments together with calculations justifying such needs.

9. During the preparation of the proposal for the medium-term plan, the ministries responsible for the industries (sectors) for public investment shall conduct consultations and receive, in accordance with the procedure established by law, information, documents and materials from:

ministries implementing state policy in the relevant industry (sector) for public investment;

central executive bodies, whose activities are coordinated by ministries that ensure the formation and implementation of state policy in areas included in the relevant industry (sector);

central executive bodies, the activities of which are coordinated by ministries responsible for industries (sectors) for public investment, as well as enterprises, institutions and organizations falling under the management of such ministries;

other central executive authorities (if necessary).

10. Ministries responsible for industries (sectors) for public investment shall ensure the preparation of proposals for the medium-term plan in the form in accordance with Appendix 2 and submit them to the Ministry of Economy in electronic form using the Unified Information System for Management of Public Investment Projects (hereinafter referred to as the Unified Information System) with a qualified electronic signature or an advanced electronic signature based on a qualified electronic signature certificate.

11. Proposals for the medium-term plan are submitted by the ministries responsible for industries (sectors) for public investment within one month from the date of sending the instructions to the Ministry of Economy.

12. The Ministry of Economy shall analyze the proposals for the medium-term plan submitted by the ministries responsible for the industries (sectors) for public investment, summarize the information received, and form a draft medium-term plan.

13. If, based on the results of the analysis, it is found that the proposal does not comply with the requirements of the medium-term plan, the Ministry of Economy shall, within seven working days from the date of registration of such a proposal in the Unified Information System, return it for revision to the ministry responsible for the industry (sector) for public investment by sending a message in electronic form with appropriate justifications using the software of the Unified Information System. The presence of spelling, syntactic or grammatical errors that do not distort the content of the proposal is not a reason for its return.

14. The ministries responsible for the industry (sector) for public investment, within five working days from the date of receipt of a notification in electronic form from the Ministry of Economy sent by the software of the Unified Information System, shall ensure the finalization of the proposal for the medium-term plan and its re-submission to the Ministry of Economy in accordance with paragraph 10 of these Procedures.

If necessary, the Ministry of Economy holds consultations with ministries responsible for industries (sectors) for public investment to coordinate positions on the proposal for the medium-term plan.

15. After the expiration of the deadlines for submitting proposals to the medium-term plan, the Ministry of Economy shall, within 10 working days, ensure their consideration, analysis of compliance with the requirements of paragraphs 8-11 of these Procedures and instructions, as well as generalization of information.

16. Based on the results of consideration of proposals for the medium-term plan, taking into account the requirements of paragraph 8 of these Procedures and the main areas of public investment, the Ministry of Economy prepares a draft medium-term plan.

17. After the Ministry of Finance provides the Ministry of Economy with information on the approximate maximum aggregate volume of public investments for the medium-term period, the Ministry of Economy forms proposals for the preliminary distribution of such volume by main areas of public investment in terms of areas of activity and ensures the further inclusion of proposals for the approximate distribution of funds in the draft medium-term plan. When forming proposals for the preliminary distribution of the approximate maximum aggregate volume of public investments, the Ministry of Economy holds consultations (meetings) with the participation of representatives of the Ministry of Finance and the Ministry of Development (in terms of coordination with the State Strategy for Regional Development, in particular at the level of priorities and goals, as well as the application of a territorially oriented approach), other ministries and central executive bodies to coordinate positions on the volume of funds for each such industry (sector).

18. The Ministry of Economy submits for approval to the Strategic Investment Council a draft medium-term plan with proposals for determining the main areas of public investment and an indicative distribution of funds for the main areas of public investment by areas of activity.

19. The Ministry of Economy submits a draft medium-term plan to the Ministry of Finance, approved The Strategic Investment Council, no later than May 10 of the year preceding the planned one.

The Ministry of Finance submits the draft medium-term plan, approved by the Strategic Investment Council, for approval to the Cabinet of Ministers of Ukraine simultaneously with the draft Budget Declaration.

20. The medium-term plan defines:

cross-cutting strategic goals;

priority industries (sectors) for public investment;

main areas of public investment, including under existing public investment projects and public investment programs, target indicators of public investment areas by state policy areas, regions and the corresponding indicative distribution of funds from all sources;

subsectors of industries (sectors) for public investment.

21. The results of the implementation of the medium-term plan are determined on the basis of monitoring.

22. The main tasks of monitoring the implementation of the medium-term plan are:

obtaining objective information about the results of the implementation of the medium-term plan;

ensuring effective implementation of public investments;

providing the Ministry of Economy with administrative data and analytical information on implementation of the medium-term plan.

23. Monitoring of the implementation of the medium-term plan is carried out every six months through analysis by the ministries responsible for the industry (sector) for public investment, implementation of public investments in areas of public investment (including existing public investment programs and public investment projects) and submission to the Ministry of Economy of a monitoring report in the form in accordance with Appendix 3.

24. Based on the results of the analysis of monitoring reports submitted by the ministries responsible for the industry (sector) for public investment, the Ministry of Economy prepares a consolidated monitoring report, to which, if necessary, conclusions, recommendations or comments on the results of the implementation of individual indicators of the medium-term plan are added.

25. The Ministry of Economy submits a consolidated monitoring report for consideration and approval by the Strategic Investment Council.

If necessary, the Strategic Investment Council, based on the results of reviewing the consolidated monitoring report, submits proposals to the Cabinet of Ministers of Ukraine to resolve problems identified during monitoring of the implementation of the medium-term plan.

26. Monitoring of the implementation of the medium-term plan will be carried out using the Unified Information System.

27. The results of monitoring the implementation of the medium-term plan are taken into account during development of a medium-term plan for the next period.
